

# RADIAL DISCOUNTED GRADE

Radial Timber sells two grades of timber - **Standard and Better Grade** and **Discounted B1 Grade**. **Discounted B1** or as its commonly referred to as Seconds Grade is a small proportion of our timber that does not make the Standard & Better grade due to a range of factors such as machine faults or features in the timber. This grade is perfect for those who do not mind timber with a more featured rustic finish, those applying a dark stain/oil or intending the timber to grey off over time as these features will blend in and become almost unnoticeable.

Products available;

**Screenboards** - Random length (1.0m-6.0m) and set lengths of 1.2m/1.5m/1.8m/2.1m/2.4m/3.0m

**Shiplap Cladding** - Random length (1.0m-6.0m)

**Internal Lining** - Random length (1.0m-6.0m)

**Decking** - Random length (1.0m-6.0m) and set lengths of 1.2m/1.5m/1.8m/2.1m/2.4m/3.0m

All products available in this grade are **35% off** List prices.

This grade will contain anything that does not meet a standard and better grade in the milling process. The following features are present in this grade, most lengths will have one or multiple features but will still be structurally sound.
